## Greece Ordered to Expel All Teuton Consuls

### Believed That England and France Plan Offensive Move; Bulgars Said to Have Dissention With the Teutons; Other War News

United Press Service

BERLIN, Jan. 18.—According to Vienna dispatches, England and France have presented a virtual ultimatum to Greece, demanding that the Greeks give the diplomats of the central allies their passports home within two days. If Greece does not comply, the allies will take the "necessary steps," say Sofia dispatches.

These reports, coming as they do on the heels of news of British troops being landed near Athens, cause Berlin to believe that the allies have decided to exert pressure in an effort to compel King Constantine to abandon Greek neutrality.

United Press Service

LONDON, Jan. 18.—Wireless advices from Rome say the Bulgarian forces are withdrawing from Albania because of dissensions with the Austrians and Germans.

"Athens advices say that Bulgaria and Turkey are inclined toward concluding peace with the allies," said the message.

This news was received reservedly here.

United Press Service

VIENNA, Jan. 18.—According to unofficial advices, Austria's terms of peace to Montenegro included the following conditions:

Montenegrin soldiers to surrender their arms and the citizens to come forward in groups and also surrender their arms; Austrian authorities to have the right to search Montenegro, to prevent the formation of guerrilla bands, all males to congregate in certain districts to be designated by Austria; Austria to take control of Montenegrin cities and transportation.

United Press Service

ROME, Jan. 18.—According to an unconfirmed report, Austria will guarantee Montenegro's independence and grant her an Adriatic seaport, in exchange for Mt. Lovcen, the "Gibraltar of the Adriatic."

United Press Service

NEW YORK, Jan. 18.—The Holland-American Steamship company has received word of an explosion

on the liner Ryndham, killing several members of the crew. The vessel is proceeding toward England under her own steam. A bomb plot has been suggested as the cause.

United Press Service

WASHINGTON, D. C., Jan. 18.—According to Germany, the Perla was not destroyed by a German submarine. All submarines have reported, says Berlin, and none operated in that part of the Mediterranean.

Athletics at University in Middle

United Press Service

MADISON, Wis., Jan. 18.—Football and intercollegiate athletics at Wisconsin university hung in the balance here today as the regents' committee, which has been investigating athletic conditions at the Badger school for the last two months, met for final deliberation and to vote on whether intercollegiate sports shall be continued. Baseball, or home sports, will be substituted if the committee favors abolition of college competition.

## California Floods Kill Six; Render Many Homeless

United Press Service

LOS ANGELES, Jan. 18.—With six dead and hundreds of people homeless as the result of the floods, the sun shone late this afternoon on scenes of devastation in all parts of Southern California. As yet, there is uncertainty about the weather clearing up.

The property damage is reported to be in the millions. Muddy torrents, in some places three miles wide, are rushing from the mountains to the sea. In this, debris, including the carcasses of horses and other animals, are carried.

As a result of these mountain torrents and cascades, the pipes carrying natural gas to the city are threatened with destruction. This would cut off much of the city's heat and lights.

There is no means at hand for getting milk and farm produce into the city. As a result, Los Angeles is facing a food shortage.

Three hundred families have been rendered homeless as the result of rivers overflowing their banks and deluging the vicinity of San Bernardino. Since the storm, the Santa Ana River is two miles in width and thirty feet deep.

United Press Service

SANTA ANA, Jan. 18.—A man, woman and child were drowned between Anaheim and Fullerton this morning, the flood sweeping their barge from the main highway. The bodies have not been recovered, and the identity of these latest flood victims is as yet unknown.

### "We Act Like Cowards," Says Senator Chamberlain

Two Views of Senator George E. Chamberlain of Oregon

Senator George E. Chamberlain's speech in which he said the United States acted the bully to small nations south and like a coward to powers of Europe, was one of the most radical statements made by a member of the upper house of congress. It has been widely quoted. This is what he had to say:

In dealing with the smaller nations we have acted like a great bully. When Hayti has a revolution and refuses to pay her debts we send warships and a few marines to take charge. When any of these republics to the south fail to do their duty we do not hesitate to send men to take charge of their finances. But when it comes to the time that we have to deal with the greater powers of the world we do not act like a brave and courageous nation; we act like cowards, I am ashamed to say."

## RABIES TRACES FOUND AT MARSH

### THREE HEAD OF CATTLE BELONGING TO SKEEN AND LENZ DISCOVERED WITH STRANGE SYMPTOMS, AND WERE KILLED

The Klamath Marsh district, which so far has been free from any traces of rabies, has at last apparently been invaded by the malady. Three head of cattle were discovered suffering with symptoms like rabies Monday, according to J. H. Heesig, who was here from the Fort yesterday.

Two head were the property of Charles Lenz and the third was on the Skeen ranch. All were shot yesterday.

The Fort section has seen a number of apparently infected coyotes, and a sharp lookout is being kept to prevent an outbreak in that section. Recently a coyote entered the yard of the Copeland home. It was shot immediately.

From the reservation come reports of the dogs and cattle being bitten by coyotes.

Citizens' Training Camp

United Press Service

CHATTANOOGA, Tenn., Jan. 18.—Governors and adjutant generals or their representatives from seventeen states met here today to discuss plans for the Southern military citizens' training camp at Chickamauga next summer. Other states that are expected to join are: Maryland, Delaware, Arkansas, Virginia, West Virginia, North Carolina, Missouri, Alabama, Louisiana, Georgia, Florida, Mississippi, Tennessee, Illinois, Texas and Indiana.

National Guard to Be Represented

United Press Service

NEW YORK, Jan. 18.—The Ohio National Guard soon will be represented by an observation officer with the French army on the western battle front. Sergeant R. Upson, Battery B, O. N. G., Akron, Ohio, is to sail today for France to spend six months inspecting artillery and aeroblastic methods of the French army. Upson was the winner, in an American balloon, of the last international balloon race which started in Paris.

## THEY LOSE THEIR NICE WARM PLACE

### TWO KLAMATH PHYSICIANS ON RETURNING FROM TRIP FIND STRANGERS HAVE ASSUMED AUTHORITY IN THEIR HOMES

Dr. Alford Johnson, government physician at Klamath Agency, and Dr. A. A. Soule of this city were called to Portland as witnesses in the federal court in the Joe Brown murder case.

When they returned to their Klamath homes they found that their positions as the head of the household had been assumed by people they had never before seen.

In the case of Dr. Johnson it was a boy, while Mrs. Soule had presented her husband with a little girl during his absence.

Mrs. Scott is in attendance upon Mrs. Johnson, while Mrs. Soule is being taken care of by Miss Carleton as nurse.

## WASTE OF WATER CAUSING DANGER

A note of warning was sounded at last night's council meeting by the California-Oregon Power company in a communication calling the city's attention to the fact that as a result of citizens leaving their faucets running all night instead of shutting off the water and draining their pipes, Klamath Falls has far below its usual water storage supply, and in case of fire, is in grave danger of a disastrous conflagration.

The company stated in this letter that the water is wasted in this way faster than it can be pumped, and that the pumps, although working day and night, are unable to keep up with the outflow. As a result, residents of Hot Springs addition and Ebrauna heights are unable to build fires in their ranges, for fear of the pipes being empty.

School was dismissed at the high school today, owing to fear of insufficient water for steam heating purposes.

## Mexican War Is Bitterly Fought on Senate Floor

### Bill for Immediate Intervention Comes in; Brother of Man Killed by Valles Is Executioner of "Butcher"

United Press Service

WASHINGTON, D. C., Jan. 18.—In a final effort to get quick action in the Mexican situation, Senator Lippett today offered a resolution providing for immediate intervention by the armed forces of the United States.

Senators opposed to the administration backed the bill. The most acrimonious debate heard at this session ensued.

Lippett and Chairman Stone of the senate committee on foreign relations engaged in a bitter personal debate. For a while it was feared that they would come to blows before Vice President Marshall could restore order in the senate chamber.

"Some of these senators are athirst for war," said Stone. "If it came, it would break their hearts, because then they would not have anything to make campaigns talk out of."

United Press Service

GALVESTON, Jan. 18.—Advices say that twenty thousand of General Obregon's Yaqui Indians have been sent to Mexico. They will be used in a guerrilla warfare against the Zapatistas.

United Press Service

EL PASO, Tex., Jan. 18.—Colonel Manuel Valles, Villa's "butcher," was publicly executed near Jaures at daybreak this morning. He was brought from Casa Grandes, where he was arrested yesterday, and was taken from the train this morning to a clump of cottonwoods, just outside of Jaures.

A soldier whose brother was one of the many executed by Valles, was chosen as executioner. He calmly placed the muzzle of his rifle to Valles' breast and fired.

United Press Service

WASHINGTON, D. C., Jan. 18.—Senator Stone this afternoon announced that the state department's entire report in the Mexican situation may go to the senate tomorrow.

United Press Service

EL PASO, Tex., Jan. 18.—The bodies of the two American prospectors, Hamilton and Simmons, who were murdered Saturday near Pedricana, were taken to Torreon yesterday for burial. A message to this effect was received today.

Oklahoma has a woman boxing promoter.

## BUYING WHEAT TO USE FOR MILLING

Four carloads of wheat and a carload of barley have been sent from Klamath Falls to the Albert Brothers Milling company at Portland in the last few days. This is to be used by the firm in milling operations, and was purchased by the concern's agent, R. L. DeVaney.

Mr. DeVaney recently spent several days in this city, securing samples of hard wheat. These were later tested for milling purposes, and DeVaney is again here in the interests of his company.

Many samples of wheat grown by dryland farming were recently tested by the milling company, and samples that were obtained in Klamath county proved high grade for milling purposes. This caused Mr. DeVaney to return and make purchases.

Great Britain has over 2,200 police women.

## New Method to Be Used for Eighth Grade Exams

In the May and June eighth grade examinations a new plan will be tried in testing the pupils in the subjects of United States History and Civil Government, according to a statement issued today by State Superintendent of Public Instruction J. A. Churchill. During the examination the pupils will be allowed to refer to their text books, but the questions will be so formed as to test the ability of the pupil in expressing what he learned in clear, concise language. The advantages of such a plan are: that it permits the teacher to emphasize the historical events which she considers more important; it gives the trained teacher greater freedom so that she can do a much higher quality of work than simply helping the pupils to "cram" for an examination; it frees

the teacher and the pupils from rote teaching and studying as to make the examination the end; it tends to give the pupils power of expression and eliminates the memorizing of unimportant dates and facts.

"There is always danger," said Superintendent Churchill, "of the examination system developing a question and answer method of teaching. Any plan whereby the examination becomes the end is unadvisable, and the examination usually deteriorates into a memory test. With this new plan if the teacher will adopt it, for the pupils' monthly tests they will learn by the close of the year how to use the text as merely a reference work in writing their final papers. The questions will be worded that it will be impossible for the pupil to
